STATE AGRICULTURAL AND MECHANICAL COLLEGE

MOSS ENG. CO. N.Y.

College Station, Dec. 15, 1882.

Dr. G. Engelmann

Dear Sir

I send in this mail specimens of Junci. It is a genus I know, as yet, but little about. Next year I expect to have a better collection from different parts of the state. What I send, were all found last spring in this vicinity.

I am sorry to say I have given but little attion to the Vitaceae. I have collected but a few specimens near the College here. Next year, I hope to be better informed in this line.

Will you please tell me where I can obtain your monograph of North American Juncí?

Truly yours

G. C. Nealley
